

Notes on References Formatting

1 Introduction

This is a short paper used only to exercise reference splitting today.
It has a second body line so the body font size dominates correctly here.
And a third body line to keep the sample sizes comfortably realistic too.

References

- [1] Alice Smith. A great paper. arXiv:2101.00001, 2021.
- [2] Bob Jones. Another paper on things. In NeurIPS, 2022.
